

Supporting community

Organic Amenities

- ☛ We selected organic amenities that are made from Hom-Nim rice and other natural and herbal ingredients 92-100%, avoid from the harsh chemicals such as carcinogens and no animal testing. The ingredients that using in the amenities are implemented by the local farmers. We ensure that the amenities that we attentive care to select will provide several benefits to our priority and environmental friendly.

Organic Milk

- ☛ We selected fresh organic milk from Dairy Home. It is real milk concentrated with their own style that's good to you as well as environmental friendly. Dairy Home's farming concept is the organic farming. They coordinate with local family farm to foster organic ecosystems, free from synthetic chemicals, where dairy cows can thrive on their favorite food: grass. So, we will get tastier and healthier products to serve all of you. Furthermore, Dairy Home also supports 11 local communities in Nakhon Ratchasima for taking work and income to them.

Organic Yogurt

- ☛ The yogurt that we serve you is crafted organic yogurt. It is produced from organic milk of Dairy Home's products. So it's fresher, tastier and almost always lot of healthier. You'll find that we provide everything benefits for you to live an active, healthy and happy life.

Organic Butter

- ☛ As we concern about both environment and our guest's health, we decide to produce the butter by our chef that derived from the organic ingredients (organic milk: Dairy Home). Making our fresh organic butter is very healthy as it still contains many of the vitamins and minerals found in raw milk.

Organic Coffee Bean

- ☛ We selected 100% organic coffee beans from the forest in the north of Thailand; Chiang Dao, Doi Chang and Doi Saket. Coffee trees are grown in hilly areas in Chiang Mai and Chiang Rai. The organic farming supports eco-sustenance or farming in harmony with nature. The organic coffee farmers get right up to the coffee plant and carefully hand-pick the cherries. Not only are the customers receiving the best quality but local farmers also receive the chance in order to get job and income. Because we support the local farmers by giving them work and we will share back part of the profit to their village.

Organic Rice

- ☛ Rice is important meal for the day and for everyone. We attend to concern about our guests' health so, we select the organic rice that is the best quality and provides benefits and contains lot of nutritious for our guests. We contract with Sampran Model at Nakhon Patom Province and Tup Thai at Surin Province for supporting and promoting the organic rice of them.

Organic Egg

- ☛ As for the egg station in breakfast line, our chefs have placed a focus in fresh and organic ingredients. We select the organic eggs for cooking in breakfast. The selected organic eggs are laid by hens and were raised from birth without hormones and are fed the organic feed under control of local farmers. The organic chickens are pasture-based, 100% organic-fed, and allowing them a completely natural diet then it completely contains no hormones, no pesticides, no synthetics, chemicals or antibiotic that provides high nutrients and benefits for the guests.
